

## Homework for September 16-19, 2019

This is your homework for the entire week. You must complete the problems on a separate sheet of paper.

### Monday

1.  $875 \div 15$
2.  $909 \div 33$
3.  $763 \div 62$
4.  $8,250 \div 20$
5.  $9,024 \div 45$
6.  $6,486 \div 32$

### Tuesday

1.  $5,886 \div 2 =$
2.  $5,886 \div 22 =$
3. A piece of land is being divided into 5-acre lots for houses. If there are a total of 770 acres, how many lots can be created?
4. Eight classes from a school in Georgia collected a total of 2,176 pounds of paper to recycle. If each class collected the same amount, how much did each class collect?
5. Forty bowls of cereal contain a total of 3,990 calories. How many calories are in each bowl?
6. School t-shirts were being sold for \$12 each. If the total amount of money collected from the t-shirts was \$7,152, how many t-shirts were sold?
7. The 4<sup>th</sup> and 5<sup>th</sup> grade classes at NCES are going on a field trip. Each school bus holds 72 students. If there are a total of 253 fourth and fifth grade students, how many school buses will be needed?
8. Page's Book Company has 219 books to ship. Each shipping box will hold 5 books. How many shipping boxes will the company need to ship all of the books? Show your work and explain.

### Wednesday

1.  $2,163 \div 3 =$
2.  $2,163 \div 33 =$
3. The fifth grade teachers ordered 300 dry-erase markers. If the markers come 12 per box, how many boxes of markers were ordered?
4. A cheerleading team sold 168 cookies for a bake sale. The cookies were sold 3 per bag. How many bags of cookies did the team sell?
5. A football team sold slabs of ribs for \$18 each for a fundraiser. If the team collected \$3,510, how many slabs of ribs were sold?
6. During the four hours prior to a baseball game, 2,565 people used a shuttle service to get to the stadium. Each shuttle could only hold 48 people. In order to transport all of the people, how many trips did the shuttle service have to make?
7. Bobby has 86 blue ray discs in his collection. If he stores the discs in a cabinet that hold 8 discs on each shelf, how many shelves will he need to hold his collection?
8. A teacher has 216 grams of glue sticks. If each glue stick is 6 grams, how many glue sticks does the teacher have?

### Thursday

No homework. Use this time to practice basic facts or play Prodigy.
